

ORHX

April 21st, 2018

What is ORHX?

ORHX is the first student run high school hackathon in the El Dorado area. Students will sign up on our website orhacks.com and then join us at the Intel FM7 facility on April 21st, 2018 for 12 hours. During this time they will be tasked to create a collaborative project by combining their experience and knowledge in brand new ways. Along the way students will have the opportunity to win prizes, learn from mentors, and make new friends interested in the same field as they are. Our goal is to provide students with materials and lessons they can use to become skilled computer scientists and hardware experts.

Over 100 students from the El Dorado Union High School district will be invited to attend the event from 8AM to 8PM at Intel's Folsom campus, 1900 Prairie City Rd, Folsom, CA 95630.

Contact ORHX at sponsor@orhacks.com if you have any questions.

Why sponsor ORHX?

Sponsors have the opportunity to:

- **Recruit** – While many participants may be beginning developers, our event will attract top academic and creative high school talent. ORHX is the perfect opportunity to recruit high school students for internships and/or summer programs.
- **Strengthen your brand** – High school students will get to experience your brand in person. The students may be the perfect demographic for your product or service. This event is a perfect opportunity for your company to market and receive valuable feedback. Plus, students love to show off the branded stickers, t-shirts, and other swag you can provide at our event.
- **Connect** – Our sponsors are not only investing in ORHX, they are investing in our community. All programmers remember their first hackathon and the companies that helped make it happen. Sponsoring the event will connect students, companies, and the community together.

Where does your money go?

All funds received help cover the costs of the event to make it the best it can be. Money can go towards food, t-shirts, prizes, swag, and other miscellaneous uses.

What can I give?

There are ways other than money that sponsors can aid ORHX. Hardware for hacks, food, prizes, and mentors are all appreciated forms of support. Contact us to let us know in what creative ways you can support us.
